## **8. ITINERARY**

We strongly recommend that guest arrive at least one day prior to the charter start date. Guests are also encouraged to book any return flights be it domestic or international, at least 24 hours after the time of departure from La Galigo, thus allowing the body enough time to fully gas off, to enjoy some land based activity, and to ditch your sea legs. La Galigo will not be held responsible for any missed flights or other connections.

The La Galigo team has created a schedule based on the best time of the year to be in Raja Ampat/ Komodo/ Wakatobi, considering conditions such as swell, waves, wind, and tidal behavior. La Galigo has no control over natural climatic conditions, and the Indonesian weather system is notoriously unpredictable. Regardless of what your itinerary states, if the captain feels that travelling to a certain area due to any of the above factors, may jeopardize the safety of the boat, its crew, and passengers, the captain's word is final. Please do not feel that we are trying to compromise your trip, there are many dive sites around the areas we travel, and it is often possible to avoid unfavorable weather and ocean conditions within a short journey.

Your safety is our number one priority, we pride ourselves on providing you with the best possible trip, within our operating capacity.

## **9. PASSPORTS, DOCUMENTATION, CERTIFICATION**

Your passport must be valid for at least 6 months beyond your period of travel and have at least 2 empty facing pages within it. You are required to have a return ticket, outbound from Indonesia

Customers are responsible for ensuring they have the proper documentation to travel into each country on their itinerary, as well as for re-entry and return to their Country. Please check with the appropriate consulate to ensure you have the proper documentation. Always check your passport and visa requirements.

To partake in any scuba diving activity with La Galigo, we will require that you, the customer, hold a valid certification from a recognized scuba diving agency such as SSI, CMAS, BSAC, PADI or similar. The customer is responsible, as a certified diver, to respect and follow the guidelines given by the La Galigo guides and instructors, plus adhere to the regulations stipulated by their certification agency. Clients are solely responsible to provide a diving medical statement or physicians medical dated within the last 12 months, certification card and log book. Ignoring the directions given by the guides, or not presenting certification card, log book or valid medical paperwork may cause a limitation or disqualification from scuba diving on the voyage. The diver accepts their responsibility to be technically capable of participating in the activity of scuba diving and fully accepts the risks associated. We reserve the right, for safety reasons, and at the discretion of the La Galigo guides, to refuse access to one, several or all dives, if the diver does not have the necessary competence to participate safely.

All divers must be either Advanced Open Water certified with at least 20 logged dives, or Open Water certified, with at least 40 logged dives and have dived within the past 5 years. A mandatory refresher shall take place at our first dive site for anyone who hasn't dived in the past year, which is included in the cost of the trip.

## **10. MEDICAL AND HEALTH**

La Galigo or its staff are not certified to give you any medical advice or any prescription drugs. If you are unsure about any medical matter, then please seek advice from your general practitioner before scuba diving and similar activities. Likewise, if you are unsure about your physical level of fitness for the itinerary you wish to book, please inform our office and we can discuss your needs in more detail.

Before commencing any holiday, one should be physically able to enjoy themselves. The activities that La Galigo offer can be physically demanding, and as such you will be required to be reasonably physically fit to participate and enjoy these activities. Activities include hiking to view points as well as diving. Discomfort, displeasure and pain resulting

from the inability to do said activities as a result of physical unfitness are not ground for complaint or refund. We recommend a complete physical before your trip. There is a DAN certified recompression chamber located in Bali.

If you have any health problems, are on any form of medication or have had any illness, injury or operation that may affect you whilst diving, please let your booking agent know in advance. As we require an up to date medical statement confirming you are fit to dive. Failure to inform us about this may result in you not being able to dive, as it may not be able to be obtained from local Indonesian general doctors that are not specialist in hyperbaric medicine. Failure to disclose such prior information, may result in your insurance being invalid, or your trip being a non-diving one.

Anyone with specific dietary requirements, including vegetarian/ vegan diets, or food intolerances or allergies should advise us at least 61 days before the trip. Should you have any restrictions or requirements and not inform our booking office previous to your trip departure, it may be difficult or impossible to meet such requirements.

La Galigo is equipped with advanced first aid kits onboard, including oxygen and an AED. Currents and winds may cause moderate movement of the vessel at times. You may want to bring motion sickness medication if you feel you will need it. We suggest you bring over the counter motion sickness medication or consult your doctor about prescription brands, such as the trans-dermal patch or Scopace tablets. Please be sure to consult your Doctor about using such medications when diving. We also have an herbal alternative onboard that many people find successful, but as with anything that you consume for medical purposes, please be aware of its contents before consumption. La Galigo and their staff are unable to accept any medication brought onboard for safe keeping including those that require refrigeration. Should a guest have a medication requiring temperature control, they will need to travel with a travel cooling case or small storage cooler with several blue ice packets. The crew will be happy to store and recharge the blue ice but are unable to accept possession of, or responsibility for the proper care and storage of medication. This should be kept in your cabin.

Should you suffer from any of the conditions outlined below, please provide a signed medical statement from your doctor within the last 3 months.

- Asthma. Please be aware that we do not accept divers with asthma if you have had an attack in the last 3 years – or those who take medication for prevention or treatment of asthma on all our dive trips. If you had an attack between 3-10 years ago, we will ask to see the results of a Spiro metric test (lung function test) dated not older than 3 months.
- Diabetes. Unfortunately, we do not accept divers with this condition, as our staff are not medically qualified to a level to deal with any medical problems that may arise.
- Thyroid Disease. Divers with thyroid disease or having no thyroid gland should bring a medical statement dated within the past 3 months proving that their cardiovascular system has been critically assessed.
- La Galigo also cannot accept divers with Hypertension (high blood pressure) or

- divers using anti-depressants.
- We would advise anyone with severe allergies to reconsider booking such a trip. The use of peanut oil and crustaceans are widespread throughout Asia, and due to our remoteness, it might be difficult to receive the right treatment for adverse reactions. We do not guarantee with any of our meals that there might be traces of peanut and seafood.
  - Previous cases of DCS and DCI in the last 5 years require a medical clearance from a hyperbaric trained specialist.

Please note that for the above mentioned conditions we do NOT accept medical statements issued locally in Indonesia, unless they are from an accredited hospital or surgery. If you need any assistance or further advice on this subject, please contact us for further information.

La Galigo is not willing to risk your life or endanger those around you by overlooking such conditions. Please be aware, that due to our location, medical attention is not always easy to obtain. It might, in a worst case scenario require medical evacuation; La Galigo holds no responsibility or liability for medical evacuation costs.

Failure to make La Galigo and your insurers aware of any existing conditions may lead to your insurance being invalid or being refused for diving activities whilst onboard.

## **11.INSURANCE**

We strongly recommend to our guests that they purchase a fully comprehensive travel insurance package that covers; accidents, medical assistance, baggage, trip cancellation and interruption, personal liability and effects, when a reservation is made. All guests should ensure they have appropriate insurance to cover the activities they will be undertaking during their trip, regardless of risk. Please be advised that if guests choose not to carry travel insurance, La Galigo will not be held responsible for any financial disappointment caused by reasons beyond our control.

Travel insurance is a personal preference and highly recommended, DIVING insurance, however, is not.

***We require all divers to have a diving insurance policy that includes medical evacuation for the entirety of your trip, La Galigo will require a copy of your insurance policy, at least 24 hours prior to departure.***

This insurance should take into consideration the costs involved in accident treatment including hyperbaric treatment and/or repatriation. In the case of a diving accident, or other accident, where the accident was not caused by a service provided by La Galigo or their employees, La Galigo will not be held responsible and any requests for

compensation will be refused.

We highly recommend dive insurance offered by the Divers Alert Network and travel insurance. Special 10 day or 30 day DAN dive insurance packages are available, La Galigo reservation office can assist you with obtaining this insurance before your trip. [www.diversalertnetwork.org](http://www.diversalertnetwork.org)

## **12. CLAIMS AND COMPLAINTS**

If you have observations, complaints or requests for reimbursement, you should contact us immediately, or at least within 10 days from the return of your trip. Beyond this time, it becomes extremely difficult for us to intervene due to the nature of the law in Indonesia. All requests for reimbursement relating to additional services, or services invoiced but not provided, will be studied on presentation of documentation and additional information. In the case of litigation legal jurisdiction will be Indonesia.

## **13. PRICE FLUCTUATIONS \*\***

All quoted published rates have been calculated from Indonesian Rupiah to United States dollar. The rate supplied is current at the time of initial payment. In case of a devaluation of the US Dollar to the Indonesian Rupiah; La Galigo reserves the right to levy a supplemental charge directly proportional to the amount of the exchange rate devaluation on a per passenger basis. The amount of the supplemental charge as of sixty (60) days prior to the departure date, which La Galigo advises, shall be added to the final payment of each invoice. The exchange rate shall be determined by the rate as stated on the international exchange rate website [xe.com](http://xe.com) at noon GMT, sixty (60) days prior to the day of departure.

## **14. LIABILITY, RELEASE AND ASSUMPTION OF RISK**

La Galigo cannot be held liable for and will not be responsible for personal injuries, property damage, or wrongful death that may occur during activities arranged, booked or performed by La Galigo. There are inherent risks associated with all activities offered by La Galigo, and those risks must be accepted and accounted for by each individual customer. La Galigo is neither negligent nor liable if accidents happen as a result of acts or omissions of other third parties. La Galigo cannot be held liable for and will not be responsible for loss or damage of personal items such as individual dive equipment, camera and video equipment, strobes and other accessories, passports, flight tickets, etc. Scuba diving requires a certification from a recognised diving agency such as PADI or SSI. It is your responsibility to demonstrate that you are suitably qualified to participate in any diving activities, and to provide proof of such qualification upon request, prior to you

taking part. Such activities include all diving activities other than Open Water Diver or Scuba Diver Course, or Discover Scuba Diving activities that allow participants to take part without a license.

## **15. PERSONAL BELONGINGS**

La Galigo does not recommend that you bring personal belongings of exceptional or sentimental value onboard during your trip. Such items as laptops, cameras, tablets and other electrical goods may become damaged due to water damage. Likewise, with valuable pieces of jewellery, La Galigo and its staff will not be held responsible for the damage or loss of such items. All items you decide to bring are at your own risk.

## **16. PHOTOGRAPHY & VIDEOGRAPHY EQUIPMENT**

Sole responsibility for handling, care, cleaning and maintenance of personal camera equipment, including camera bodies, lenses, memory cards, housings, strobes, lights or other photography or videography accessories, lies with guests.

La Galigo, neither its staff including boat crew and dive professionals, or the facility through which this experience is offered, may be held liable or responsible in any assistance offered or as a result of the negligence of any party, whether passive or active.

In asking La Galigo staff to assist with any of the afore mentioned items, Guests hereby personally assume all risks, whether foreseen or, that may befall equipment whilst being assisted by the crew.

This includes periods of required handling between the main vessel and the speed boats, handling between the speedboats to and from the water, prior and post to diving or snorkeling, and cleaning and storage whilst on board La Galigo

Camera dome covers provided by the manufacture should be kept in place whenever the camera is not in use, especially during transporting to and from dive sites and when stowing cameras.

La Galigo also recommends storing all camera equipment in a durable waterproof casing. A dry cabinet has been provided in the lounge area for guest use.

## **17. NUMBER OF DIVES**

Please note that the number of dives we list in any package is a best estimate based on normal circumstances, not a guarantee. Circumstances may arise during your liveaboard holiday (weather, illness, personal choice) where the total number of dives done is less than the number we estimate. There will be no partial refunds in these circumstances.

All our dives are guided at a ratio of 1 guide to 5 customers or better. Our normal schedule consists of the following but can change due to conditions, 3 dives a day plus 1 night dive when possible. There will be 1 check out dive on arrival day, 2 dives on the last day of the cruise and no dive on the check-out day dependent on location and logistics.

## **18. DIVING CONDITIONS**

Our charters offer remote pristine diving, and the dive sites we explore each offer something a little different. The water temperature in Raja Ampat varies from 27-30C/ 82-86F and air temperature 25-32C/ 78-89F. These unique itineraries offer diving on healthy and vibrant reefs, seamounts, sheer walls, caves, beautiful coral gardens and magnificent critter dives. A 3mm wetsuit and hood is recommended, however, only you really know your own requirements. Many of our guides are happy in a rash guard, but if you know you get cold, please, bring a wetsuit. Likewise, as a customer, if you are not satisfied with the condition of our staff, please make the management aware, and we will resolve the issue with as little issue and alteration as possible.

## **23. DRUGS**

Please be aware that Indonesia is one of the strictest countries in south east Asia with regards to drug trafficking and possession. Offences such as drug trafficking have been known to result in the death penalty. La Galigo operates a zero-tolerance policy towards banned narcotics onboard our vessel.
